

Noah's Tarp 9, 12 & 16 Pitching Instructions

In order to familiarize yourself with your new tarp, we recommend you "test pitch" before your first adventure. For additional information please visit www.kelty.com.

Package Includes: Noah's Tarp, Guy Line, Stakes, Carry Bag.
Poles are NOT included

Noah's Tarp pitched with Kelty Staff Poles (sold separately)

Noah's Tarp guy cord storage pocket

There are many ways to set up your Noah's Tarp.

Without Poles:

- 1) Find two trees with enough space between them to fit the tarp.
- 2) Spread the tarp on the ground with loops up and the seam pointing towards both trees.
- 3) Use cord to attach the corners to the trees. Tighten cord until center seam is taught.
- 4) Stake out the side corners and adjust for desired protection.

With Poles:

- 1) Lay out the tarp over the area you want to cover.
- 2) Stand up one pole at corner with tip in O ring and stake guy cords so pole is stable.
- 3) Repeat for opposite corner.
- 4) Stake out guy cords on non-poled corners.
- 5) Tighten guy cords as needed.

Use additional loops to configure/set up your Noah's Tarp in numerous ways.
